Apiary Book
All about your bees

MISSION

Help beekeepers from around the world to make better informed decisions.

We are providing a complete solution for **management of apiaries**, **monitoring of beehives** and **data analysis** of bee colonies and environmental factors affecting their health**.**

Apiary Book is the most complete apiary management solution, allowing beekeepers to record and analyze all activities in order to reduce bee colony losses and improve productivity.

Translated into19 languages with help from beekeepers

Access of apiary data from multiple devices
